Drowning Case Will Be Resumed in White Plains

Court Justice Seeger Ruled Case Be Adjourned to White Plains, Where Press and Public Will Be Excluded—Two Witnesses on Stand.

Justice Seeger, of the New York court, ruled today that the drowning case of Edward W. Browning, who was killed in a boat on the Hudson river, should be resumed in White Plains. The case was adjourned from Kingston because of the large number of reporters and photographers who had gathered there.

Justice Seeger ruled that the case should be resumed in White Plains, where the press and public would be excluded. The case was adjourned from Kingston because of the large number of reporters and photographers who had gathered there.

Charged With Killing His Wife

Lockport, N. Y., Jan. 24 (AP).—Family troubles of long standing culminated this morning in the killing of Mary Kaufman, 45 years old of 78 Irving street, with an axe alleged to have been wielded by her husband, John Kaufman, 48.

The body with head battered in was found lying in a pool of blood on the cellar floor by a son, George, who went to look for her. He notified the police and the father was arrested in a local soft drink place. He was said to be intoxicated and is being held on a charge of murder, first degree. Two years ago Kaufman was arrested for threatening his wife with a revolver.

Another Death In Weird Pact

Medical Student Takes Own Life to Learn What Is Beyond the Grave—Officials Claim Students Agreed Upon Weird Pact.

Madison, Wis., Jan. 24 (AP).—Twenty-year-old Cassels W. Noe, medical student at the University of Wisconsin, shot and killed himself yesterday "to learn what is beyond the grave."

Noe's parents, Dr. and Mrs. W. D. Noe, returned from church to find their son's body across his bed and the father's revolver near by. The youth took his own life a few hours after a long talk with two fraternity brothers, both students of psychology.

Noe spent the Christmas vacation with Joseph Moore, University of Illinois student who killed himself January 4, leaving a note that said he was "trying to keep on living."

A weird pact which had for its purpose inter-communication between the living and the dead had been agreed upon by a group of students of whom Noe was one, county officers said after reading notes left by the boy for his mother and for a fellow student, Robert Horton.

In the note to his father and mother, Noe asked them to tell him to "watch for a message."

"Tell him," the note said, "that I will talk to him at 12 Monday and again Friday."

Follow students of the youth said he had discussed the best means of suicide with several classmates, and they also related rumors of a proposed suicide pact with a co-ed. One note left by Noe was addressed to a young woman, but it was not made public.

The justice added that he had, however, received a message from a "prominent ladies' organization," of which he was a member, urging him to hear the case in private.

Agreement of court and counsel resulted in a few moments on reservation decision on the chambers question and proceeding at once with the part of the testimony which Judge Mack and Epstein predicted would be "harmless."

Two Witnesses Called. Only two witnesses were called. Browning employees, and they were introduced by Mack for the purpose, he explained, of showing that the marriage of the rector and his wife had been a happy one.

Edward P. Carney, who operates Browning's limousine, took the stand to say that he had been ordered by the Browning's mother, Mrs. Catherine Heenan, to take two or three weeks from the Kew Gardens, Long Island, apartment of Mr. Browning to the apartment of Mrs. Heenan in New York.

"Tired of It All." Carney said he obeyed instructions that he heard Mrs. Browning say: "Money isn't everything. I'm tired of it all."

He added: "After I got the trunk away in Mrs. Heenan's place, I asked if there was anything else, and Mrs. Heenan said 'no,' and that Peaches was sick and tired of it all, and that they were going back."

John T. Gorman, secretary to Browning since September, 1925, testified that in October he had been called to the telephone in Browning's real estate office and told to "listen to this."

He said on the extension he heard Browning ask to speak to his wife, and Mrs. Heenan said that Mrs. Browning did not desire to speak to her husband, and that, besides, "Peaches" was through.

Federation Hears State President

Open Meeting of Federation of Women's Clubs Addressed by Mrs. Purdy Who Tells of Women's Work in Nation and State.

There was an excellent attendance of Kingston women at the open meeting of the Federation of Women's Clubs on Saturday afternoon at the chapel of the First Reformed Church. The president of the local Federation, Mrs. A. Ray Powley, presided.

During the business session a communication from the Y. M. C. A. thanking the Federation for their contribution of \$20 was read. Announcement was made of the annual meeting of the Y. W. C. A. at the Y. W. C. A. Hall this evening at 8 o'clock, when Mr. Reagan of Poughkeepsie will be the speaker.

Announcement was made of the food sale of The Federation to be held at the Rose-Gorman-Rose store on the afternoon of Saturday, February 12, and the women present were asked to be generous in contributions of cakes, pies, biscuits, etc.

Christmas Seal Sales. Dr. Mary Gage-Day, chairman of the public health committee, announced that the money already received from the sale of Tuberculosis Christmas Seals amounted to \$6,437.47 with a surprisingly large number of letters not yet heard from.

Even with the expenses taken out of the present sum, the amount realized for tuberculosis work in Ulster county will be much more than in any previous year.

Speaker for March Meeting. Dr. Purdy also announced that the public health committee would entertain the Federation at the next open meeting in March. At that time the committee will bring to Kingston Frances D. Lyon, L. B. A., a graduate of Cornell University College of Law and a member of the bar of New York.

In the summer of 1924 Miss Lyon was in Europe with the American Bar Association, in the summer of 1925 she was a member of the Institute of Politics at Williams-town, Mass., and last summer she was in Geneva, Switzerland, attending the School of International Studies, with a week's attendance at sessions of the League of Nations.

Miss Lyon, who is now practicing law in Albany, will speak on "The Public Health Department of the League of Nations."

Brief reports were given by the various club presidents and chairmen of standing committees of the Federation. This brought the business session to a close and Mrs. Powley turned the meeting over to the Lowell Club as the entertaining club of the afternoon.

Lowell Club Gives Welcome. Mrs. Virgil B. Van Wageningen, president of the Lowell Club, welcomed those present very graciously and bespoke for all a profitable and happy new year of club work. She announced as the first number on their program a piano solo by Mrs. Childer, which was fully appreciated.

Mrs. Van Wageningen expressed the pleasure and gratification of the members of the Lowell Club in their privilege in bringing to Kingston, Mrs. Purdy, of Mt. Vernon, N. Y., president of The Federation of Women's Clubs of the Empire State, whom she introduced.

Mrs. Purdy was apparently much more concerned with how the State Federation could be of real service to the women of New York state, than with the importance of being president of the State Federation.

She left her hearers much impressed with what the women of the state have done and can do if they will, for the 400,000 women making up the 615 clubs in the state are a very real power to be reckoned with.

Mrs. Purdy urged club women to try and perpetuate in the young people the thought of the importance of history, and she also urged the perpetuation of the history of each and every club of women as being a potential factor for future use in growing.

The Model Home. She called her talk with an amusing bit of the history of Sorosis, the first big women's club, and showed the evolution that has taken place in the club life of women.

She made special mention of the American home department, with the model home at Fieldstone as a test and trial. Under the chairmanship of Mrs. Charles Gregory of New Rochelle, this had proved to be really typical of a true American home, and subsequent events had proven that they had built better than they knew. Those interested were asked to communicate with Mrs. Gregory or Mrs. Purdy.

It had been remarkably educational, even to the matter of insurance as a part of home and family protection and educational insurance which looked to the future welfare of the children. It is the hope of Mrs. Gregory to have two permanent apartments in New York city; one in the Bronx, one even more extensive in the Bronx.

As part of this program American home department, Mrs. Purdy included home economics and domestic science, and she said that the state department of education, realizing that the teachers in these departments, though equipped with theoretical knowledge, lacked the practical experience of home-makers, is arranging for a conference of five such teachers, and five

Troopers Will Accept Member's Card for \$53 Bail

Membership Card in Ulster County Automobile Club to Have Additional Value Under Plan Which Is Agreeable to State Troopers—Other Benefits.

Members of the Ulster County Automobile Club for 1927 will find that their membership card is a valuable thing to have in their possession. Not only is a member of the club entitled to the numerous free road service courtesies maintained throughout the state but the superintendent of the New York State Troopers has agreed to accept the membership card of a motorist as a bail bond up to \$55.

The matter of having the State Troopers recognize and accept a member's card as bail up to \$55 was taken up some time ago by M. Wally, secretary of the local club. He is secretary of Captain Fox of "C" Troop at Sidney, and has received the following reply, which is self explanatory.

State of New York, New York State Troopers, Department of State Police, Sidney, N. Y., January 19, 1927. Auto Club of Ulster County, Mr. M. Wally, Kingston, N. Y.

Dear Sir: In answer to your letter of recent date relative to accepting the card of membership of the Automobile Club as bail bond up to \$55, beg to advise that I have taken the matter up with the superintendent, and he answered that your suggestion is agreeable to the department, and every courtesy will be extended holders of this card whenever the occasion warrants.

Assuring you of our services and cooperation at all times, I am, very truly yours, DANIEL S. FOX, Captain Troop "C".

Leave Card as Bail. The acceptance of a membership card in the Automobile Club in lieu of cash bail up to \$55 will be a convenience of great importance to members. In case of arrest by a State Trooper or other peace officer the member has only to leave his card as bail and continue on his way to return on such date as may be agreed upon, when a trial can be held.

By increasing the annual dues of the Ulster County Automobile Club from \$5 to \$10, the officials of the club are able to offer to members a far greater benefit than ever before.

Emergency Road Service. The emergency road service, which is state wide, will probably be of greatest benefit to the members. This road service is operated in conjunction with other Clubs throughout the state and provides for an emergency service at no cost to the motorist. Its operation is not generally known but it is one of the features which is now being adopted by practically all of the live clubs in the state.

Emergency road service is just what its name implies. It is service in an emergency. A member of the Ulster County Automobile Club who finds himself stranded on the road due to some mechanical difficulty has only to notify the nearest official garage or service station of his trouble and a service man will be sent to his aid immediately. These emergency service stations are located at frequent intervals and are always ready for service.

The service man on reaching the stranded motorist will look over the car and if the trouble is of a minor nature which can be repaired on the spot within half an hour, he will proceed to fix up the car. An official receipt will be given and the charge will be paid by the club without cost to the motorist. If the damage is such that it cannot be fixed in half an hour on the road, the service man will tow the car to the garage. If it is within six miles, and the cost of \$2 will be paid by the motorist who will receive a receipt which will be honored on presentation at the office of the club and the motorist reimbursed for the service. These service stations will be located at frequent intervals and it will be rare that a member is more than six miles from a service station or out of the free zone. This free towing service can be found in practically every section of the state and will effect a great saving to the motorists.

Tire Service for Lady Members. For the lady members of the club the service is even broader. A lady member who finds her car within six miles of a service station with a flat tire has only to call the station and have the spare tire put on the wheel at no cost to her. That is, she will be reimbursed for the charge on presentation her receipt. This tire service is only available to the women drivers.

The entire plan is laid out in six mile zones with service stations located at frequent intervals. Anywhere in the state if within six miles of a service station the free service is available.

Additional Service. A free ambulance service and free medical service is also provided in case of injury within six miles of an official station. Members should secure an official receipt for these services from the service men so that they may be reimbursed by the club. In addition to these services a members' section on condition for his car, a copy of the official publication each month and is also entitled to

Seeks Inquiry in Mexican Affairs

Representative Gallivan Wants Thorough Inquiry Into Mexican Situation—Officials Silent on Arbitration—Condemn U. S. Policies.

Washington, Jan. 24 (AP).—Promise of another congressional resolution of inquiry, public appeals by labor, church and college groups in the United States, and a mass meeting in Mexico City at which the Washington government was denounced for its "imperialism" and "invasion of Nicaragua," all served to keep the Mexican-Nicaraguan controversial pot boiling over the week-end.

In a resolution prepared for introduction today, Representative Gallivan, Democrat, Massachusetts, seeks a thorough inquiry into the Mexican situation, asks the state department to disclose the financiers of "pro-Calles propaganda now flooding this country," and declares "we cannot sit tamely by while the red fires burning up Mexico are creeping closer to our border."

Gallivan asserts in the preamble of his resolution that "insidious propaganda has actually reached the floor of Congress" and that "at least one member of the staff of the State Department has been discharged following complaint by Ambassador Sheffield that there existed a leak from that department to the Mexican embassy" here.

A. F. of L. Stand. That American labor hopes the United States will "not play the part of an imperialistic autocrat in its relations with Latin-American countries, but will prove itself to be, by practice and precept, an advocate and proponent of the ideals of self government and Democratic freedom," is an assertion made by William Green, president of the American Federation of Labor, in an article appearing in the American Federationist.

The administrative committee of the Federation Council of Churches declares in a statement that the present situation in Nicaragua and Mexico should "lead our government to formulate a clear policy for our future relations with the peoples and governments of Latin-America."

While official silence continues regarding possible arbitration of the Mexican oil and land controversy, professors of international law in 35 colleges and universities, headed by Joseph P. Chamberlain of Columbia, have suggested this means as a way out of the tangle on the ground that the questions at issue are "appropriate for settlement by the judicial method."

Orators at the protest meetings held in Mexico City yesterday under the auspices of "The Union of Central and South America" and the "Antilles," a society of Latin-Americans, other than Mexicans, resident in the Mexican Capital, condemned the Latin-American policies of every United States government, past and present. The Monroe Doctrine was pictured as having been twisted to suit the purposes of the Washington government.

Meanwhile, the situation in Mexico with regard to the oil situation is described as indicative of long legal contests, with a clarification depending on the ruling of the supreme court or the attorney general, foreign oil companies remain in possession of their properties, but Tampico reports say they are curtailing operations.

The only high light in the Nicaraguan civil war to develop over the week-end was a statement issued by Dr. Juan B. Sacasa, head of the Liberal government at Puerto Cabezas, declaring he would give up his claims to the presidency if a suitable neutral in his dispute with Adolfo Diaz, Conservative president, were chosen at an "honest and supervised election."

DEMOCRATS CARRY TAX FIGHT TO FLOOR OF HOUSE. Washington, Jan. 24 (AP).—The Democrats today carried their tax fight to the floor of the house, where Representative Garrett of Tennessee, the minority leader, placed upon the speaker's table a petition to take the \$235,000,000 Garner tax reduction bill from the Ways and Means Committee, where Republicans voted more than a month ago to pigeon hole it.

Swift Talks of Power Lobby. Washington, Jan. 24 (AP).—The chief obstacle to legislation for the repeal of the 1917 income tax, known as the McNamara bill, is a power lobby operating in Washington, which should be "kicked out of town," Chairman Sewell of the house rules committee said today after a visit to the White House.

Drowned as Car Goes Through Ice

Cranberry Lake, N. Y., Jan. 24 (AP).—Tragedy broke in upon a young couple's dreams of romance here last night when Glenn Oswald, 31, was drowned and his bride-to-be, Miss Marie Potele, 19, narrowly escaped death after their car plunged through the ice of Cranberry Lake and sank in 20 feet of water.

The two, who were to have been married February 23, were driving slowly along the supposedly firm ice and according to Miss Potele, talking of their plans for the future when the car dropped suddenly through the ice. Miss Potele struggled with a window on the side of the coupe, got out and shot to the surface. Half paralyzed with cold she scrambled onto a firm ice ledge as a number of persons ran to her rescue.

When her sweetheart failed to appear and she realized he was trapped at the bottom of the lake she tried to throw herself back into the icy water but was forcibly restrained.

India to Take Part in China. London, Jan. 24 (AP).—India is to have a share in the military preparations to meet untoward developments in China.

In making known to the legislative assembly at Delhi that the Indian government had agreed to contribute a contingent made up in part of native, the viceroy, Lord Irwin, emphasized, as has been done by the government here, that reinforcements are going to China "merely as a defensive measure."

The viceroy did not divulge the strength or composition of the Indian units, and nothing has been given out in London. His remarks are considered as confession of a report that the Indian government had chartered two vessels to transport troops to China, and that a contingent from the Allahabad district was soon to embark at Calcutta.

Special Music at Shriners' Ball. One of the many exceptional features of the Kingston Shriners' entertainment and ball to be held in the armory on Wednesday evening, February 9, for the benefit of the Industrial Home will be the decorations.

The committee this year have worked out a scheme of decoration which will transform the big drill hall into a veritable fairland. Just what the scheme is they will not divulge but they state with much emphasis that it will be entirely different from previous years.

There amid the decorations for which the Shriners are noted will be presented some of Broadway's favorite talent. Acts of the very highest type are being booked and those who attend can well be assured that the entertainment alone will be worth the price of admission.

The music committee is negotiating with one of New York's well known society orchestras, to play opposite Harry Malenheimer's augmented orchestra. For those who are fond of dancing the music this year will make a special appeal, as particular attention is being given to that end of the event by the committee.

Friends Surround Pastor at Trial. Austin, Tex., Jan. 24 (AP).—Fear of possible injury to Dr. J. Frank Norris caused his friends to ask court bailiffs today for permission to sit near him within the railing where his murder trial is drawing to a close.

When court opened, a circle of close friends surrounded the Fort Worth pastor who is charged with killing D. E. Chippa.

State and defense closed their testimony at 3:59 a. m., and the judge began his charge to the jury. Arguments to the jury are to be limited to six hours to a side.

After the judge's charge, the state opened arguments with Special Prosecutor Shelton demanding the death penalty. The arguments are expected to last until tomorrow afternoon, when the case may go to the jury.

The chief point in Judge James H. Hamilton's charge was on "apparent danger." He explained that the question of whether Norris was in apparent danger of his life should be decided from the standpoint of how these circumstances appeared to the defendant. He declared that the defendant was not bound to retreat but under the law, had a right to stand and defend himself if attacked.

Six Days for Peer Lawyers. Edward Wright, an elderly man, was brought to Ulster county jail Sunday, having been committed by Judge James H. Hamilton to serve six days. He was found guilty of petit larceny.

Want Tax Laws Altered. Washington, Jan. 24 (AP).—Attorney General Clegg today asked the government to let the income tax laws on money held in the bank by the movie star.

Washington, Jan. 24 (AP).—Attorney General Clegg today asked the government to let the income tax laws on money held in the bank by the movie star.

Many Residents Concerned Over Ohio River Rise

Residents of Five States Along Ohio View With Apprehension Steady Rise of River—Crest of Flood Expected to Reach Cincinnati Today.

Cincinnati, Jan. 24 (AP).—Residents of five states along nearly five hundred miles of the Ohio river viewed with apprehension today the steady rise of the river which has driven hundreds of persons from flooded lowlands.

While the water was receding in the Pittsburgh area, where the Allegheny and Monongahela rivers merge to form the Ohio, and there were prospects that further danger from the waters had passed there, the crest of the flood was moving steadily southwestward, with damage to Ohio, Indiana, West Virginia and Kentucky territory.

Flood stage had been reached and passed in many localities and further rises were predicted for the next twenty-four hours as the angry waters, swollen by heavy rains, swept onward to the Mississippi. The lower portions of a number of towns were under water, many persons were forced to the second stories of their homes or had to seek shelter on higher ground, rail and automobile traffic was hampered, water supplies were endangered and considerable damage was done.

Five days of rain in its rampage, and early today the effect of the high water was felt as far west as Louisville. The Allegheny and Monongahela rivers had fallen to 27.3 feet last midnight, a drop of 2 feet since the morning, and were steadily receding, while a cessation of the rain and a drop in temperature aided in starting the territory they traverse back to normal. Several streets were inundated on the north side of Pittsburgh and factories in the suburbs were forced to suspend operations.

Towns Hardest Hit. Marietta and Pomeroy were the two towns hardest hit in Ohio. At the former 700 houses were under four feet of water. Business in Pomeroy was suspended when water invaded part of the business district, but residents, most of which are on hilly ground, were believed to be in no danger. The 500 foot flood stage was passed at Pomeroy, and river men looked for a crest of sixty feet. Factories suspended operations at Steubenville, Ohio, while several neighboring villages, both in Ohio and West Virginia, were flooded, with many persons homeless. One death was reported at East Liverpool, where a boy was last seen adrift in a canoe.

The crest of the flood in Ohio was expected to reach Cincinnati today with a 57 foot stage. The water there last night rose to 52 feet, and railroad officials were preparing to abandon the central Union Station. The government steamer Golden Rod, valued at \$20,000, broke loose at Middleport, struck a bridge, and sank.

ANNUAL MEETING OF WURTS STREET BAPTIST CHURCH. At the annual meeting of the Wurts Street Baptist Church which was held Thursday evening, all of the church departments submitted reports showing an active church year and that the church was in good condition. The following were elected: Deacons, Roswell Saulpaugh, Sylvanus Van Aken, Charles W. Devo and William H. Terwilliger; deacons, Mrs. William B. Terwilliger, Miss Josephine Cronie and Mrs. Oliver Washburn; church clerk, Harold Friedell; chief usher, Thomas Nesbitt; Sunday school board, Thomas Nesbitt, Mrs. George Spigman and Miss Josephine Cronie. A New England supper was served by members of the Philathea Class at 6:30 o'clock, with about one hundred members of the church present.

WASHINGTON HOLDS UP THEATRE OFFICE. Washington, Jan. 24 (AP).—An un-tilled climax to a movie thriller, one that brought back memories of a much earlier catastrophe on the same spot, was staged at the Ambassador Theatre here last night.

One of the spectators who rose to leave near the close of the show, an immaculately dressed man, delayed his exit to the street a bit, walked into the manager's office with pistol in hand, fired up four men against the wall, and escaped with about \$2,000.

The holdup recalled the Knickerbocker disaster of five years ago when nearly 100 persons were killed by the crashing of the theatre's main ceiling roof. When the Knickerbocker stood, the Ambassador has risen.

Swift Hearing in Washington. Detroit, Jan. 24 (AP).—Officials in charge of the government tax suit against former stockholders of the Ford Motor Company today were preparing to shift the hearing to Washington. Only a few defense witnesses remained to be heard and instructions were the preliminary hearing here would be concluded tomorrow.

Washington, Jan. 24 (AP).—A blanket investigation of the sale of federal patronage was recommended to the Senate today by its Judiciary committee.

Don't Risk Pneumonia By Neglecting a Cold

If you have a cough or cold, don't neglect it during this pneumonia weather. A cough or cold paves the way for pneumonia because it irritates the linings of throat, chest and bronchial tubes, often the lungs themselves, if neglected too long. And it is in these inflamed linings—when a neglected cold has broken down your resistance—that dreaded pneumonia is quickest to start—often proving fatal in a few days.

Don't just dread pneumonia! Take hospital-tested medicine as absorbed by the linings of throat, chest and bronchial tubes just as ink is absorbed by a blotter. This is why Ayer's Cherry Pectoral so quickly stops the cough, drives out the cold and brings sure, lasting relief.

If "pneumonia" has developed call your doctor at once. If it has not developed, but you have a threatening cough or cold, take Ayer's Cherry Pectoral at once! Keep your throat, bronchial tubes and lungs healthy and strong. At all druggists, 60c. twice as much \$1.00.

No Longyears on Van Buren Tree

But A. H. Van Buren Urges Everyone to Aid in Furnishing Information No That the Tree Will Be Complete.

To the Editor of The Freeman.

Sir:—Your issue of the 15th instant contains what purports to be a letter from "Edmund Joseph Longyear, son of Isaac, son of Peter, son of Johannes, son of Jacob," giving considerable information concerning the Longyear family, and requesting any information relating to that family, because he intends to grow a genealogical tree of the Longyear family and publish it in book form. That up to January 1, 1926, 1,400 Longyears have been perched on that tree by him, more are roosting on it every day, but he wants to make his tree chuck full of Longyears.

I received a letter from the same "Edmund Joseph Longyear, son of Isaac, son of etc., etc., etc." asking me to send him the branch of the Van Buren family, containing the names of all the Longyears from whom the Van Buren's were descended legitimately or illegitimately; and also to send him the address of my son Fred, for he was sure that Fred's wife belonged on the Longyear tree. Fred's wife is never so happy as when she is doing something for somebody; so she looked very carefully at all her family trees, and she has a forest of them, and couldn't find one Longyear, whereas she grieved very, very much, not because she didn't find a Longyear for her own pleasure but because Edmund Joseph Longyear, son of Peter, son of etc., etc., etc., would be disappointed. My son Fred told her that he didn't know, and didn't care a darn whether his wife had a Longyear branch to her family tree, or any other branch of tree, or whether she had ten thousand family trees or not a darn one, she exactly suited him with trees or without trees, in which opinion I heartily agree.

I am a long suffering and an exceedingly tender and kind-hearted man, and not wishing to disappoint Edmund Joseph Longyear, son of Peter, son of etc., etc., etc., I wrote to an expert of experts who has been growing family trees up in Albany for at least one hundred and fifty years, to make and send me a tree of the Van Buren family, at the lowest possible cost, and to be sure that it had a Longyear branch on it. He sent me a most beautiful tree, but greatly to my regret and sorrow, there wasn't a Longyear branch, twig, or leaf upon it.

Strange, most remarkable, for, as we are told in "The Good Book," the Van Buren, Longyear and all other families are descended from the first man Adam.

Then I like a vast number of very wicked people, being an evolutionist, a modernist, and a Darwinian, knew that Adam was a descendant from some beautiful Ape-like form, he from the lancelet, he from a speck of protoplasm, and it from the union of a few of the chemical elements. So I wrote again to the expert of experts to put on the Van Buren tree enough branches to fill it up at the least to the lancelet. He replied, that that was too much of a job for him, that I should consult Darrow of the Monkey Tribe.

But that expert of expert gave me some hope of properly fixing up the Van Buren family, for he told me that there was a time when there were no surnames. That every person, like the patriarchs of old, had only one name, as Adam, Cain, Abel, Noah, Moses, Eve, Leah, Sari, Rebecca, Ruth, etc., etc. That the Dutch van means of or from, and refers to the name of the place from where the person in question was born, or in which he lived, or from which he sailed when he moved. The first Van Buren who came to America was Cornelius Maessen, and his name on the books of the ship in which he sailed, was written, Cornelius Maessen. Van Buren, Cornelius Maessen from the city of Buren, Holland. That surnames were used to designate, as with Van Buren's, the name of a place or locality, as John Hill—John on the hill, John Brook—John by the brook. Also from the occupation of the person, as John the Smith, John Smith, John Carpenter, etc., etc. Also from some personality, peculiarity, as John Long, Short, Black, White, etc., etc.

After the trunk of the Van Buren family tree the two biggest branches are the DeWitts and Hasbroucks. The "de" in the name DeWitt is not the French particle or preposition, "van," but the Dutch definite article "the" and the name DeWitt was given as a nickname to a person who had very white hair, or a specially white skin, or as we say today, Will DeWitt is a bully white chap.

Hasbrouck in Dutch, Haas is the Dutch word for "hare," and "brook" means "marsh," or "swamp." The Dutch method to write the word would be "Hasebrook," place abounding in hares, a person who hunted hares in a swamp or marsh. The name exactly fits the Hasbroucks, for every one of them is forever hunting something and usually captures it. William, the Hon. G. D. B.

The expert of experts also told me that many of the pages in the earliest manuscript had been lost or mutilated, and names were very often spelled in different ways, and difficult to read, that Longyear probably was originally written Long-Ear. This clears up the matter for everyone who is acquainted with the Longyears know that many of them have Long-ears. So it is best time to search the ancient records for Longyears, look for Long-Ears.

There is yet one thing which greatly perplexes me, and which the expert of experts can't clear up. I've cannot be a descendant of a Longyear, a Van Buren or of any person, for the "Good Book" tells us

that she was a snake, even, new creature made of one of the ribs of Adam. This is very remarkable for every Eve has exactly the same number of ribs as any Adam. If we can call her a descendant of Adam then who was her mother, it couldn't be an amoeba or a speck of protoplasm for they are sexless, and who ever heard of or tried to make a person without both a father and mother?

I had almost forgotten that the expert of experts told me that if I looked very carefully at the Van Buren family tree he had sent me, I would discover that a number of its branches had been cut or sawed off close to the trunk of the tree. That meant that a number of Van Burens, and probably a few Long-Ears had been hanged on these branches, thereby rendering them absolutely incapable of perpetuating the race, whereas I was pleased and greatly delighted, for no person was ever hanged except he had been a hero and did some glorious and never-to-be-forgotten deed.

I write this letter to aid all those who wish to help in growing the Longyear or Long-Ear family tree. Send all the information you can so that there may not be left a single inch on that family tree upon which anyone can root and direct to "Edmund Joseph Longyear," son of Isaac, son of Peter, son of Johannes, son of Jacob, Alameda, California, United States of America, send by prepaid, registered, insured, first-class matter. If you can possibly publish this free gratis, and as your contribution to the growing the Longyear Family Tree, it will forever be treated by myself and every possessor of a family tree.

Yours most sincerely and gratefully and truly,
A. H. VAN BUREN.

A Pancake Supper.

The Ladies Aid Society of the First Reformed Dutch Church will serve a pan cake supper in the chapel, Wednesday, January 26, from 5 to 7 p. m. The menu will be cakes with maple syrup, C. A. Hendricks's sausage, grape fruit, baked apples and coffee.

The KITCHEN CABINET

(6, 127, Western Newspaper Union.)

The things that never happen to us are often as much realities in their effect upon us as those that are accomplished.—David Copperfield.

FOOD FOR THE FAMILY

For those who like the filling but do not eat pastry try the filling in cups.

Pumpkin Pie in Cups.—Put a rim of pastry around custard cups after filling them with pumpkin pulp and bake as usual.

Cranberry Ice.—Cook cranberries for sauce and strain them, add an equal amount of sugar syrup and freeze. Make the syrup by boiling two cupsful of sugar with one-half cupful of water. Cool and add to the juice. Freeze and serve in cups.

Turkey Giblet Soup.—Chop the cooked giblets fine, then put through a coarse sieve. Thicken the liquor in which the giblets were cooked with a little butter and flour cooked together, then add cream to the giblets and brown stock to make the quantity desired.

Chestnut Stuffing.—Blanch a pound of Italian chestnuts, boil until tender and put through the ricer. Add one cupful of bread crumbs, one-half cupful of shortening, one tablespoonful of poultry seasoning, a half cupful of raisins, salt, celery, pepper and cayenne to taste.

Cabbage Salad.—Shred a firm white head of cabbage and dress with cream, add a dash of vinegar and sugar to taste with a bit of salt.

Eggs Marengo.—Butter waffle tin and set upon the stove to warm. In the bottom of each put a teaspoonful of soft bread crumbs, add a dessert spoonful of milk, then a fresh egg carefully broken, season with salt, paprika and pepper. Over this drop a lump of butter, more bread crumbs and a little grated cheese. Bake in a moderate oven for ten minutes. They should be a golden brown and when a knife is run around the edge and they are turned out on a hot platter, they look like brown puff balls.

A hot egg sandwich is most appetizing for a quick lunch. Fry a little onion in butter until the onion is light yellow, then drop in an egg. Cook until done, put onto a piece of hot buttered bread, cover with another and serve.

Nellie Maxwell

Don't Let That Cold Turn Into "Flu"

That cold may turn into "Flu." Coughs, colds, sore throats, influenza, pneumonia, all start from a cold.

Get the cold out of your system and you can keep it out. It is easy to do. An effective remedy is a powerful disinfectant, kills the cold germs, soothes the throat, relieves the chest, clears the lungs, and keeps the cold from coming back.

You will find a warm, soothing, and refreshing remedy that keeps the cold from coming back.

Plans for Bazaar Now Complete

Plans have been completed for the annual bazaar of St. Mary's Church, which will be held in the school hall on the evenings of January 26, 27, 28 and 29, under the auspices of the united societies of the parish. Many beautiful and valuable articles have been donated by members and friends of the church as well as by business houses in this city and the metropolis. As for the booths, their artistic effect has transformed the hall into a veritable fairland.

On the opening night, which will be Wednesday, January 26, as an innovation a supper will be served from 5 until 8 o'clock. The menu will be as follows: Chicken pie, mashed potatoes, peas, cabbage salad with Russian dressing, jelly, rolls and coffee. On Thursday night, pancakes with maple syrup, sausage and coffee will be served, and on Friday evening a clam chowder supper will be the attraction. Mrs. Mary Daley will cater and as her culinary accomplishments are well established, it is expected that the large hall will be taxed to its capacity.

The Very Rev. Dean Joseph B. Scully, pastor, is delighted with the enthusiasm and good will of all who are working on the committees and hopes this social function will be as well attended and as enjoyable as those of previous years. There will be dancing each evening and the public is invited.

ACCORD.

Accord, Jan. 24.—Mrs. Nettie Kerley is visiting her brother at St. Joseph, N. Y.

Carl Henderson, who was injured when the car in which he was riding was struck by Henry Decker's truck, is reported as gaining slowly.

Owing to the illness of the surgeon, who was to operate on Percy W. Smith, the operation was postponed and Mr. Smith has returned to his home.

Mrs. Samuel W. Davis is confined to her home with a severe cold.

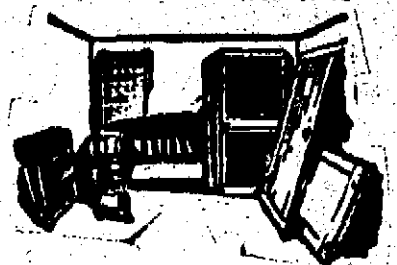

Let Plants Breathe

Plants breathe through their leaves. They can not breathe if the pores are clogged with dust. Outside, the rains keep them clean. Indoors, they must be given a bath, once a week at least, with tepid water through a fine, gentle spray. Try this and see how your plants thrive.

Unvarying Quality "SALADA" TEA

That is why people insist on Salada.

FIRE INSURANCE

SCREENS, awnings, storm doors and windows are in themselves a costly item these days.

If you have bought them for your home, you know what they're worth.

Suppose they should burn tonight?

This agency of the Hartford Fire Insurance Co. will insure your household goods and personal belongings.

PARDEE'S INSURANCE AGENCY

City Hospital Auxiliary.
The Ladies' Auxiliary of the Kingston City Hospital will hold their regular monthly meeting at the hospital on Tuesday afternoon at 2:30 o'clock.

Ulster Park W. C. T. U.
The Ulster Park W. C. T. U. will meet at the home of Mrs. William Terpenning on Wednesday afternoon January 26, at 2:30. Word for call, "Peace".

"MA" IN POLITICS.

The one distinguishing feature of Governor Ferguson's regime was the "pardon orgy". Shortly before the end of her term it was reported that she had signed 3,218 petitions for clemency and later it was stated that she was working overtime on "a startling last-minute batch" of pardons. The indications are that, if only given time, her unreasoning and dangerous sentimentality would have emptied the prisons of Texas. All the other acts of her official life are attributed to the influence of her husband, ex-Governor "Jim", to whom she frankly and openly turned for controlling advice. It seems that there is one of these, and only one, for which Texas gratefully remembers "the Fergusons"—their putting through the Legislature the anti-search and seizure bill which makes it a penal offense for prohibition officers to search a home or automobile without a warrant. "Jim" insinuated through "Ma" that this was carrying out the true spirit of the Bill of Rights.

Mrs. Ferguson is generally re-
 garded as a failure in office, but her
 severest critics have been women,
 particularly political women who
 were outraged by her "womanly"
 dependence on her husband and
 who declared, not without reason,
 that the fiasco of her administration
 had made it harder than ever for
 other women to obtain high execu-
 tive positions. Obviously they go
 too far in blaming "Ma" for the re-
 fusal of the Oklahoma legislature
 to let down the bars keeping women
 from the Governorship and other
 administrative offices in that State,
 for such a reluctant and apprehen-
 sive attitude widely existed before
 Texas elected a woman Governor.
 Whatever qualifications other women
 may display in future, it is plain
 that the proper place for "Ma" Fer-
 guson is the home to which she re-
 turns, free of responsibilities which
 should never have been hers.

FEDERAL NURSING-BOTTLE.

The Sheppard-Towner act, called
 by some of its original opponents the
 Federal "midwife" bill, and propos-
 ing "the promotion of the welfare
 and hygiene of maternity and in-
 fancy and other purposes", got by
 Congress in 1921 only by the limita-
 tion of the appropriations under it
 for five years. It appropriated \$240,-
 000 annually, or \$5,000 for each
 State, provided the States receiving
 it appropriated an equal sum. Five
 States, Massachusetts, Illinois, Kan-
 sas, Maine and Connecticut, ignored
 the offer and never accepted this
 crumb of "encouragement". The
 Senate has now passed an amend-
 ment continuing the measure ap-
 propriation for two years but declaring
 that the maternity act will be of no
 force and effect after June 30, 1929,
 when it is to be presumed the Fed-
 eral assistant "midwife" will retire
 from business.

It is stated that the American
 Medical Association has found the
 results "invisible", but the lay senti-
 mentalists responsible for the law
 may be of another opinion. "That
 say Congressmen," remarks the New
 York Times, "who give even occa-
 sional lip-service to State rights
 should support this Federal subsidy
 and this Federal intervention in
 State legislation and taxation would
 be comical if there were not so few
 Democrats left not willing to leave
 their State as soundings on Uncle
 Sam's doorstep. If there were not
 so few Congressmen of any party
 willing or able to resist the wheed-
 lings of the threats of noisy minor-
 ities." Though the act is looked to
 die of its own feebleness and futil-
 ity in 1929, "noisy minorities" will
 still thrive, and no doubt the call for
 a Federal nursing bottle, and the
 demand that the States deposit them-
 selves as helpless foundlings on the
 Federal doorstep, will be heard
 again.

THE PLACE OF LAWS.

William F. Kitch, who speaks
 in government circles, is an
 article in the American Mercury, en-
 titled "The Place of Laws," dis-
 cusses that total number of laws
 currently operative in the United
 States, including city, county, state
 and national, approximately 19 mil-
 lion, and that the time has come for

a new Justinian to junk the whole
 complicated mess and to substitute a
 simple code, like that of the Roman
 lawgiver.

In 1925 no fewer than 13,000 new
 laws appeared on the statute books of
 the 48 states. Fifteen typical Ameri-
 can cities added 4,833 laws in one
 year and there are some 13,000 im-
 portant towns and cities, and all of
 them are busy grinding out ordi-
 nances. State legislatures will this
 year grind out thousands of addition-
 al laws to add to the cost of govern-
 ment. The more laws, the more bu-
 reaucrats to enforce them. The more
 bureaucrats, the more laws to in-
 crease and extend their power, until
 we have reached the point where the
 whole top-heavy system is breaking
 down and the law becomes a joke. It
 can be added that practically every
 new law increases taxes, and one of
 the best ways to bring about tax re-
 duction is to stop passing new laws.

NEW TREATMENT FOR BURNS.

Some months ago I talked about
 the new treatment for burns by tan-
 nic acid which had been tried out in
 one of our large hospitals.

The results were most satisfactory
 and hospitals elsewhere are now re-
 porting favorably on this new method.

Drs. Beck and Power of Cleveland,
 in treating burns, are recommending
 the use of a 2 1/2 to 5 per cent solu-
 tion of tannic acid in water as a wet
 dressing, for twenty-four hours. When
 the burned part becomes a mahogany
 brown in color, the dressing is re-
 moved and the patient is treated
 with heated dry air. This is done
 by erecting a tent over the bed, and
 inserting electric lights.

"Patients treated by the tannic
 acid have a firm mahogany mem-
 brane on the burned area—healthy
 skin is apparently unaffected by the
 treatment."

The severe pain present with ex-
 tensive burns is considerably lessened
 by this treatment, in fact it is the
 most effective method yet discovered
 for allaying the pain.

As burns are going to occur any-
 where and everywhere they recom-
 mend that the dry powder tannic
 acid, be kept in mills, mines, fac-
 tories, and so forth, and should form
 part of the equipment of all first aid
 outfits.

The solution can be easily made
 by mixing four teaspoonful of the
 dry powder in a glass of water. This
 makes the 2 1/2 per cent solution ap-
 proximately.

It can be sprayed on the part, or
 can be applied by means of com-
 presses.

This treatment would seem to
 combine the good points of other
 methods, because it keeps the air
 away, prevents absorption of the poi-
 sons, and gives a cleaner result in
 every way.

When we remember that in severe
 burns, where a considerable
 portion of the skin surface is
 affected, that deaths from shock,
 from the absorption of poisons, is
 almost sure to occur, it is certainly
 gratifying to know that this simple
 method is now within the reach of
 all of us.

TWENTY AND TEN YEARS AGO.

Jan. 23, 1907.—Daniel Haines of
 West Saugerties seriously injured
 when pipe he was smoking exploded.

Board of Trade held its fifteenth
 annual banquet at Eagle Hotel.

Jan. 24, 1907.—Thermometers
 registered from 8 to 20 degrees be-
 low zero in Kingston.

Store in residence of David Well
 on Spring street exploded.

Lutheran Church of Redeemer
 celebrated its tenth anniversary.

Jan. 23, 1917.—Knickerbocker Ice
 Company was harvesting 12 inch ice
 on Hudson river.

Irish, 6 year old son of Merritt
 Van Gieson of Lake Katrine, re-
 ceived fractured skull when his sled
 crashed into an automobile.

Mrs. Thomas Chambers died in
 Poughkeepsie.

Jan. 24, 1917.—Anthony Jankow-
 ski and Miss Sophie Zakrzewska mar-
 ried.

Death of Mrs. Mary J. Carrington
 at her home on Hurley avenue, aged
 69 years.

The price of gasoline was jumped
 to 23 cents a gallon here.

The Freeman Social Club held its
 second annual banquet at The Stur-
 vesant.

Paul C. Khedierian and Miss
 Esther Cole married.

Edward F. Moran and Miss Mar-
 garet Kearney married.

STONE RIDGE.

Stone Ridge, Jan. 21.—The men
 of the M. E. Church will serve a hot
 roast and lamb supper, Wednes-
 day, February 2. Menu: Roast
 beef and lamb, dressing, man-
 dated potatoes, carrots and peas, en-
 chanted lettuce with Russian dressing,
 brown bread, biscuit, jelly, pickles,
 apple pie, cheese and coffee.

The annual business meeting of
 the Ladies Aid of the M. E. Church
 for election of officers will be held
 at the parsonage Friday, February 3,
 at 2:30. This is a supper party for
 all members of the families and
 they are urged to be at the parson-
 age at 6:30 for supper and enjoy an
 evening of visiting.

Fast Games For Chrysler.

Supporting an enviable record of
 twenty-five wins and one loss, the
 Chrysler will oppose two strong op-
 ponents this week. Tonight the ap-
 ponents will take on the Overland
 Whiplash and on Thursday night the
 Chrysler will be the oppo-
 nent of the Buick. The games will be played
 at the S. A. Court on North Front
 street.

TODAY'S STORY IN
NEW YORK HISTORY

By
 Frederic A. Godcharles
 (Copyright, 1927, by the Author)

Andrew Elliott, Civil Engineer and
 First Surveyor General of
 United States, Born Janu-
 ary 24, 1754.

Andrew Elliott, noted civil en-
 gineer, scientist and statesman, was
 born in Buck's county, Pennsyl-
 vania, January 24, 1754.

He was the son of Andrew and
 the grandson of Andrew Elliott,
 who emigrated from Wales with his
 wife and son in 1731. The latter
 was noted for his mechanical skill
 and inventive genius, devising some
 of the most famous clocks of the
 day, and becoming an expert in the
 construction of mathematical and
 astronomical instruments, as well as
 an authority on their theory and ap-
 plication. His son inherited his
 father's genius and was his associate
 in all intricate work.

Andrew, Jr., with his brother,
 who were Quakers, purchased a
 large tract of wild land on the
 Patuxent River, Maryland, in 1770,
 and four years later founded the
 town of Elliott Mills, now Elliott
 City, where Andrew the third,
 passed his youth in the study of
 science and practical mechanics.
 His scientific attainments soon at-
 tracted attention and he enjoyed the
 friendship and confidence of such
 men as Washington, Franklin and
 Rittenhouse. From a period pre-
 ceding the Revolution to the day of
 his death he was employed in the
 fulfillment of trusts conferred by
 the Federal and State Governments.

At various times he was employed
 as a civil engineer and commissioned
 to mark boundaries of different
 states, including Virginia, Pennsyl-
 vania and New York.

Though he belonged to the Society
 of Friends, he commanded a bat-
 talion of Maryland militia in the Revo-
 lutionary War. In 1785 he removed
 to Baltimore and served in the
 Maryland Legislature.

In 1785 he was commissioned
 by the Supreme Executive Council
 of the State of Pennsylvania to run
 the northern boundary of Pennsyl-
 vania, and in 1788 he was directed
 to make a survey of the islands in
 the Allegheny and Ohio rivers.

In 1789 Mr. Elliott was commis-
 sioned by the United States Govern-
 ment to locate the western bound-
 ary of New York State, and ascer-
 tain the validity of this state to the
 site upon which Erie, Pennsylvania,
 now stands.

He located the line, after much
 hardship and trouble, some twenty
 miles east of Presque Isle. He also,
 in the same year, made the first ac-
 curate measurement of the Niagara
 River from lake to lake, computing
 the height of the fall and the descent
 of the rapids.

This valuable service was appre-
 ciated by President Washington and
 others in authority. Elliott notes
 in his journal at the completion of
 the Erie survey: "General Wash-
 ington has treated me with atten-
 tion. The Speaker of Congress and
 Governor of State have constantly
 extended to me the most flattering
 courtesies."

In 1790 he was employed by the
 Federal Government to survey and
 lay out the District of Columbia and
 Washington City, and in recognition
 of these services he was, in 1792,
 given the rank of Surveyor General
 of the United States.

In 1795 he superintended the con-
 struction of Fort Erie, at Presque
 Isle, now Erie, Pa., and surveyed
 and laid out the towns of Erie, War-
 ren and Franklin, in Pennsylvania.

In the following year he was ap-
 pointed by President Washington as
 United States Commissioner to locate
 the boundary between the United
 States and Spanish possessions, under
 the Treaty of San Lorenzo el
 Real, which survey occupied nearly
 five years.

Upon the completion of this im-
 portant work he was appointed, Oc-
 tober 1, 1801, by Governor McKean,
 secretary of the Pennsylvania Land
 Office, which office he resigned April
 1, 1803, and on September 1, 1812,
 he became professor of mathematics
 in the United States Military Acad-
 emy, West Point, N. Y., retaining
 that position until his death.

In 1817 he was sent by the Fed-
 eral Government to Montreal for the
 purpose of making certain astron-
 omical observations necessary to the
 fulfillment of the treaty of Ghent.

He contributed to the transactions
 of the American Philosophical So-
 ciety of which he was an active
 member, and also conducted corres-
 pondence with many of the learned
 societies of Europe.

Mr. Elliott died at West Point,
 N. Y., August 29, 1839.

His brother, Joseph, also born in
 Pennsylvania, November 1, 1746,
 was a noted civil engineer and con-
 tributed more than any other to the
 founding and development of Buf-
 falo, N. Y. He surveyed the "Holland
 Purchase," and was an earnest
 advocate of the Erie Canal. He also
 numbered his brother in laying out
 the city of Washington and in other
 important works. He died August
 12, 1825.

Tomorrow: Arrival of first Pres-
 entment Minister.

Today's Announcements.

1423.—The Rev. James Michael-
 son and family arrived at Kingston.

1411.—Six slaves murder another
 slave in New York city.

1470.—James Neapolitano died,
 born 1845. Dutch nationality to the
 Indians of New York.

1816.—Charles Southard born in
 Putnam county, N. Y. Fourth Gov-
 ernor of Wisconsin. Died April 23,
 1874.

1322.—Governor Harry advances
 theory in politics which is now
 popular system.

1433.—Joseph Hedges Choate

The Central Hudson Gas & Electric Corporation

On January 1st, 1927

took over the assets and liabilities, and also the business relationships
 of the following companies:

CENTRAL HUDSON GAS & ELECTRIC COMPANY
 DUTCHESS LIGHT, HEAT & POWER COMPANY OF RHINEBECK, N. Y.
 UNITED HUDSON ELECTRIC CORPORATION
 UPPER HUDSON ELECTRIC & RAILROAD COMPANY
 KINGSTON GAS & ELECTRIC COMPANY
 ULSTER ELECTRIC LIGHT, HEAT & POWER COMPANY

The consolidating companies ceased doing business on December 31, 1926, from
 which time the business formerly conducted by these companies has been carried on
 in the name of the new Corporation.

Service to our patrons in connection with the supply of gas, electricity, etc., will be
 conducted under the same policies and by the same personnel as heretofore. It is the
 belief of the management, however, that service to the public will be improved as a
 result of the consolidation of these companies.

It will take a little time for our customers to get used to the name of the new cor-
 poration and for our own personnel to become familiar with the new routine. We
 solicit your help in making this period of readjustment as short as possible, so that
 the benefits of consolidation may be realized at an early date. It will assist us greatly
 in this matter if you will address all communications and make all checks payable
 to the new Corporation in place of the old, and will arrange for the prompt exchange
 of securities under the Consolidation Plan.

Central Hudson Gas & Electric
 Corporation

LAST NIGHT
on the RADIO

Really good reception for two

WABQ, formerly at Haverford, Penn., broadcasting from the Hotel Lorraine, Philadelphia. The other was a new station, WABM, at Wilkes-Barre, Penn., "The Voice of the Wyoming Valley," using about 485 meters and miraculously not interfering with either WHT or WOR. Another Saturday night feature was a song, "Nice Baby, Blow Your Nose."

An outburst of code interfered with WABQ Sunday night about 9 o'clock. Prince William began to speak, but he does not shine as a radio speaker. He was frank enough to make no concealment of the fact that he is here on a lecture tour, his lectures to be illustrated with moving pictures.

The WGY Sunday afternoon concert was marred by the regular invasion of whistling caused by bloopers who seem to concentrate on it every Sunday.

It is unfortunate that WDBZ has not a better telephone connection with the Fair Street Reformed Church.

Star performers Sunday night were WGES, WBSB, WLS, WIOB, WTAM, WOC and WJR. WABQ was the best station from which to receive the Atwater Kent program. WJZ also had some good features and very little furling.

WSSH, Tremont Temple, Boston, was one of the stations heard Sunday night that is not often tuned in.

Orchard
InformationGET MICE BEFORE
THEY GET TREES

Get the mice before the mice get your fruit trees. Any grower is liable to losses of hundreds of dollars, and the aggregate loss every year runs into many thousands of dollars.

Mice can be controlled, and the best way is to stop them permanently with strychnine. Sift an eighth of an ounce of powdered strychnine to which has been added an equal amount of baking soda over a quart of rolled oats. Stir it well to distribute it evenly. Heat the oat flakes and then pour over them a mixture of about six table-spoonfuls of paraffin, which should be well stirred to coat each flake with the grease.

When the soaked oat flakes are well coated with a waterproof coat of grease which is attractive to the mice. Place this poisoned bait in a tin can or a wooden shelter at the base of as many trees as possible, under boards, near runways, and along stone walls. It should not be placed so that birds will find it—some sort of a container should always be used.

Other practices are the use of wire screen guards around the base of the trees, and close cultivation. Both of these help discourage the mice, but do not remove the source of the trouble as does the poison, which is recommended in all serious cases.

The greatest damage usually occurs in orchards where dead grass and weeds are left to form shelter for the mice near the base of the trees. The mice make runways and build their nests, close to a good food supply and protected from their natural enemies, the hawks, owls, cats, skunks, foxes and weasels.

Winter Orchard Injury

Prevented in the Fall

"A few simple precautions taken during the fall or early winter will prevent most of the harm caused to orchards by rabbits, mice and various forms of winter injury," says Prof. A. J. Farley of the New Jersey experiment station.

"Volunteer grasses and weeds usually grow up in an orchard during the late summer and early fall after the regular cultivation of the tree is discontinued. In young orchards this mat of material comes right up to the trunks of the trees and provides an ideal nesting place for mice that may seriously injure the trees by eating the bark and sapwood of the lower trunk and large roots. A large amount of this injury may be avoided by removing all dead grass and weeds from an area at least 3 or 4 feet in diameter around the trunk of each tree.

"To reduce winter injury the soil should be firmly packed around the trunks and a mound of earth 8 or 10 inches high made around them.

"Such treatment will provide some protection against winter injury by preventing the settling of water around the trunks, which by alternating freezing and thawing may cause injury to the bark and sapwood."

Cuttings Are Employed

in Propagating Grapes

Cuttings are employed in propagating the grape. In all ordinary cases, hardwood cuttings are made from the ripened canes in autumn or winter when the vines are pruned. It is advisable to take the cuttings before the canes have been exposed to much cold. Choose only those canes that are well matured, solid, and rather short-jointed. In common practice, the cuttings are made in two-foot lengths, the lower cut being close to the bud. The cuttings will range from six to ten inches in length. The cuttings are tied in bundles of fifty or one hundred, and stored in sand, moss or sawdust in a cellar, until spring in order that callusing may take place, when they are planted in rows in the open. For most planting it is advisable to procure well-grown plants from the nursery.

Cricket Stopped Auto

When L. B. Ernestine, of San Francisco, was half way to Los Angeles he ran into a dense swarm of black crickets which suddenly appeared to come from nowhere early in the morning. The insects crawled all over the automobile and into the draught holes of the hood of the machine in such numbers as to stop the wheel of the fan. Before Ernestine could go on he found it necessary to clean out all the space under the hood over his engine. He took out about 20 pounds of crushed crickets which had been run into a jelly by the fan in its rotations.

The International Way

The settlement of \$100,000 a year on the Duke of Marlborough by his prospective father-in-law, William K. Vanderbilt, back in the '70s led Cornelius Bleecker to say at the Knickerbocker Club:

"The duke reminds me of another titled foreigner who called on an other millionaire one day and said:

"I shall be glad to marry your daughter, Mr. Rex, provided—"

"That?" said the millionaire. "You provided what?"

"The foreigner smiled quietly. "Just provided," he said."

Invest New Scout Troop at Church

Service at Clinton Avenue M. E. Church Monday Night Believed to Be First of Its Kind in America.

Boy Scout Troop 11 of the Clinton Avenue M. E. Church was officially invested at the evening service on Sunday evening by Ulster County Commissioner R. F. Overbagh of Saugerties. Following the installation of the troop, Howard N. Smith, Scout executive of Ulster county, gave an interesting address on "The Biggest Job in America."

Twelve boys were installed as a standard church troop and received the troop streamer and individual bars signifying their investment. Scoutmaster Newell S. Cranston was installed as well as his two assistant scoutmasters, Leslie Watrous and J. Watson Wheeler. The Rev. Ernest G. Reith was designated chaplain, a distinctive feature of the church troop, and the scout committee consisting of Frank S. Hyatt, chairman, Jay Rittenbury, Dr. William J. Cranston, Vernon S. Miller and Martin Snyder was also invested.

It is thought that this investiture service was the first of its kind in America, as this type of troop, called a standard church troop, is distinctive from the regular Scout troop in that it embodies with its usual Scout work many church duties for which the Scout may receive credit.

Dance at Polish Hall.
There will be a dance tonight in the Polish School Hall on Delaware avenue. The public is invited to attend. Music by Zucca's orchestra.

P. T. A. School No. 4.
The regular meeting of the Parent-Teacher Association of School No. 4 will be held Tuesday afternoon at 3:30 o'clock at the school.

A cottage prayer meeting will be held at the home of Mrs. Winchell, 73 Franklin street, on Tuesday evening. The meeting will be addressed by the Rev. Mr. Kern. All welcome.

Forest Fires Minimized
Radio, airplanes and wireless telephones cut the toll of forest fires in Ontario to a minimum in 1926, according to a bulletin issued by the department of lands and forests. Ontario maintains a fleet of 16 hydro planes, which patrol the timbered areas daily, says the bulletin. Look-out towers equipped with radio transmitting apparatus and wireless telephones are located at strategic points. When a blaze is reported, airplanes carry forest rangers and fire-fighting equipment to the scene of the fire.

Researches in China
Whole chapters of the prehistory of the Chinese are expected to come to light as the result of an archeological expedition to Manchuria and Mongolia now being organized at Tokyo. Relics of the Stone Age and other ancient periods of man's existence in Asia are sought by the scientists in charge. From what has already been discovered in these regions there is every indication that the surface of this particular habitat of early man has only been scratched yet, archeologically speaking.

Graveyard for Sale
Anyone who wishes to buy a perfectly good graveyard will find one for sale at Lismore, Ireland. Reason for sale—no business. The graveyard was opened several years ago, but the officials say there have been no deaths. An effort is being made to dispose of the grounds to a local parish priest, and the publicity of home affairs has because of the unusual circumstances approved the sale.

CAMEL'S HAIR OVERCOATS

Tailored Exclusively for us by Messrs. Stein-Block of Rochester, N. Y.

Prices \$75.00 and \$85.00
